

Front cover information

Adenium is a genus of flowering plants in the family Apocynaceae, first described as a genus in 1819. It is native to Africa and the Arabian Peninsula. *Adenium obesum* is grown as a houseplant in temperate and tropical regions. Numerous hybrids have been developed. Adeniums are appreciated for their colorful flowers and unusual, thick caudices. They can be grown for many years in a pot and are commonly used for bonsai. Because seed-grown plants are not genetically identical to the mother plant, grafting is commonly used for propagating desirable varieties. Genetically identical plants can also be propagated by cutting. However, cutting-grown plants develop a desirable thick caudex slower than seed-grown plants.

Guideline for Author

Journal of Electrical Engineering and Computer Sciences (JEECS) is a scientific journal that presents and updated scientific articles in the field of Electrical Engineering and Computer Sciences research among academics and practitioners alike, including power system, electrical engineering, industry automation, computer sciences, informatics, and information system.

Manuscripts submitted to JEECS should accomplish the following checklist:

- The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
- The submission file is in Microsoft Word document file format.
- Where available, URLs for the references have been provided.
- The text is single-spaced; uses a 12-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
- The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines.

Journal Publication Policy

Publication of articles in JEECS is dependent solely on scientific validity and coherence as judged by our editors and/or peer reviewers, who will also assess whether the writing is comprehensible and whether the work represents a useful contribution to the field. JEECS acknowledged the effort and suggestions made by its reviewers.
